

An F-15 fighter jet is shown in flight against a clear blue sky. The aircraft is dark grey and is viewed from a low angle, showing its underside and wings. The cockpit is visible, and the jet is angled upwards and to the right.

# F-15 Worldwide Review

— GE Aerospace / November 2024 / Tony Ramsaroop – Program Manager

# Avionics

Navigation, control, networking and computing systems focused on security, open architecture, and sustainability.

- Headquarters
- Engineering, Manufacturing, Service
- Customer & Field Support
- Research, Engineering

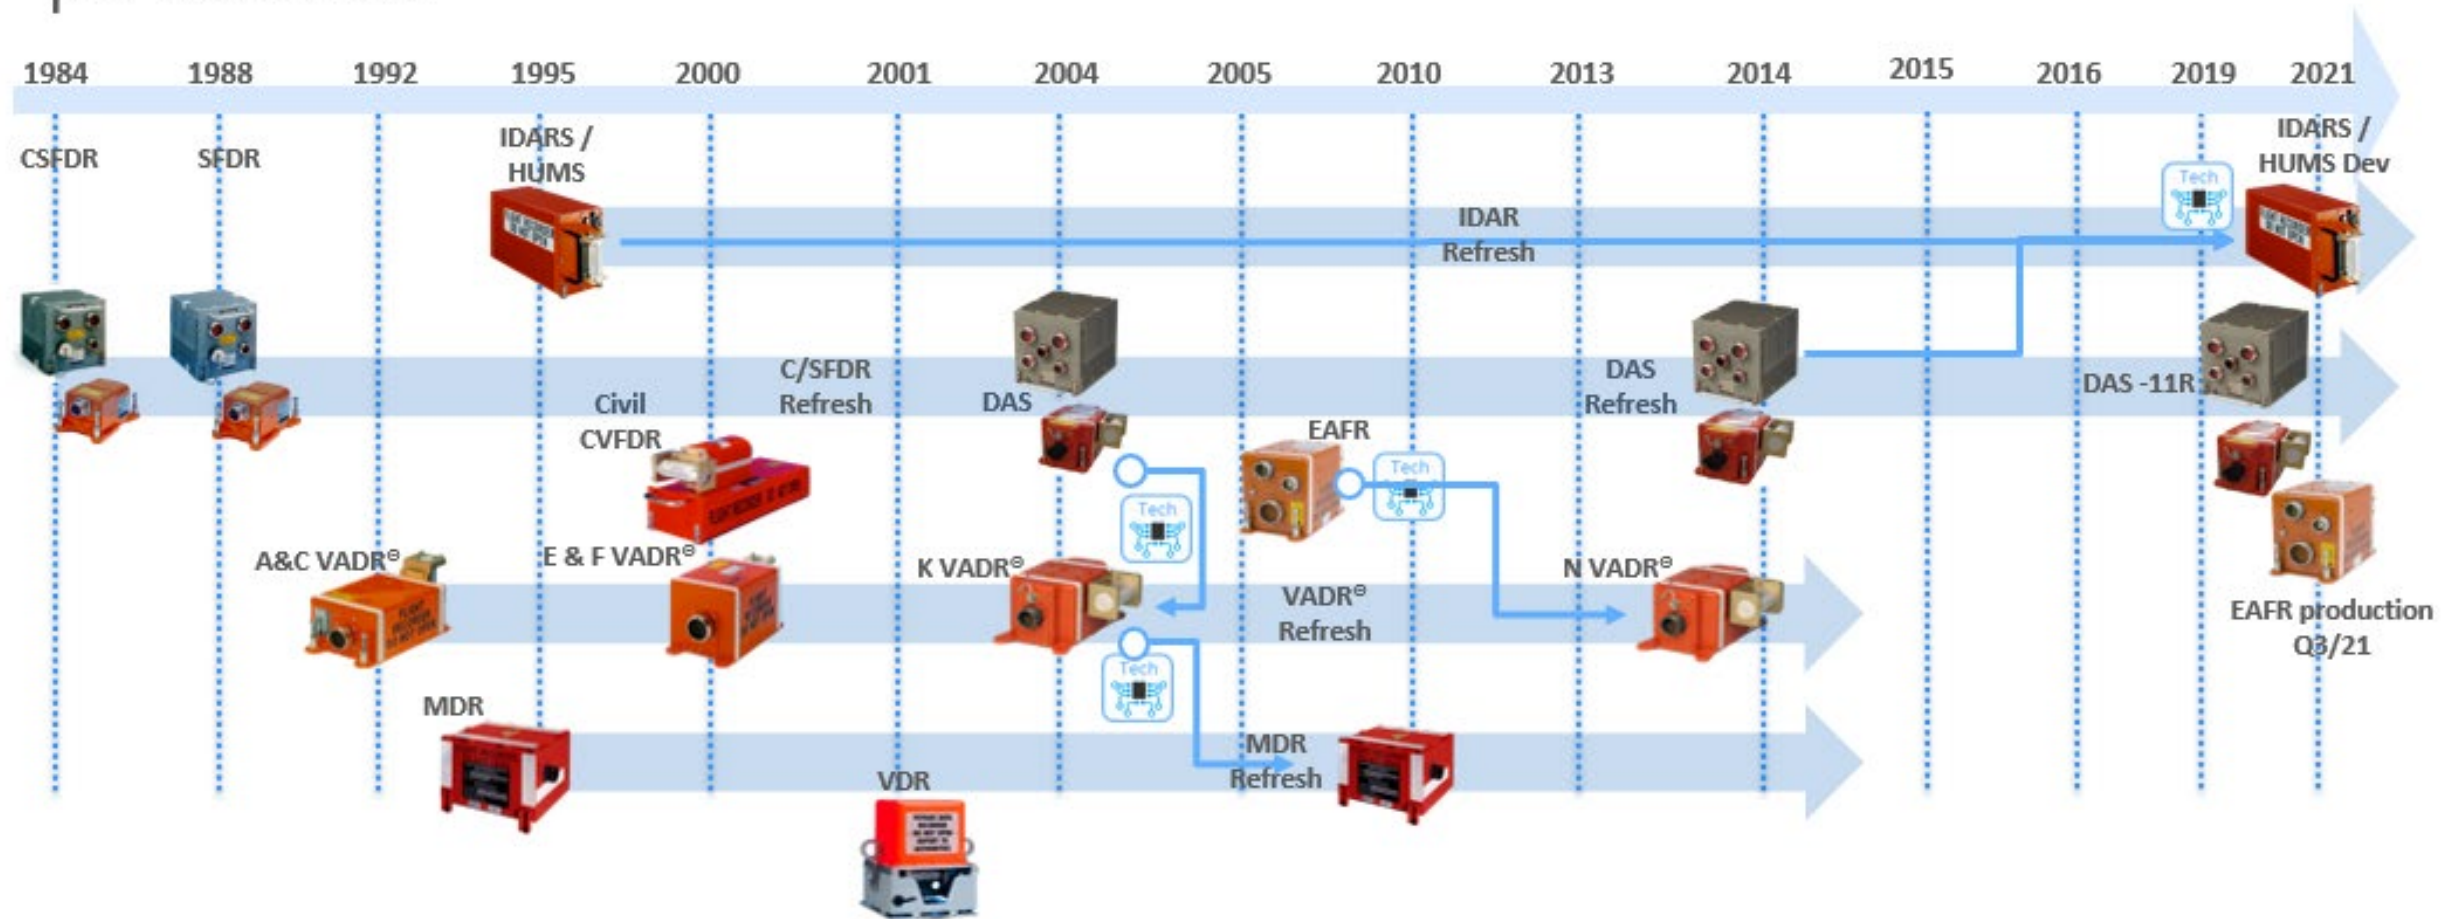

## Main platforms:

Boeing 787 & 777X      Airbus A320 family  
 Boeing 737NG & MAX      COMAC C919  
 Gulfstream G500/600/650  
 Bombardier Global 6000/7000

C-130J	F-35	Fire Scout
KC-46A	F-22	UH-60
F-16	F-15	AH-64
F/A-18	V-22	CH-47

# GE Flight Recorder Lineage, periodic updates, new introductions and continual performance

## Product Area Focus

- 40+ years of Military and Civil Data Acquisition and Recorder Systems incorporating crash survivable memory with data acquisition, processing, recording, downloading, analysis
- Dissemination of a wide range of data and information to many user disciplines

# Flight Data Recorder Product History

	Seawater Immersion	3 ft for 48 hrs.	3 ft for 48 hrs.	20,000 ft for 30 days	20,000 ft for 30 days	20,000 ft for 30 days
	Fire protection (hrs.)	½	½	1	1	1

## JEDAI – Light, fast secure with same form and fit

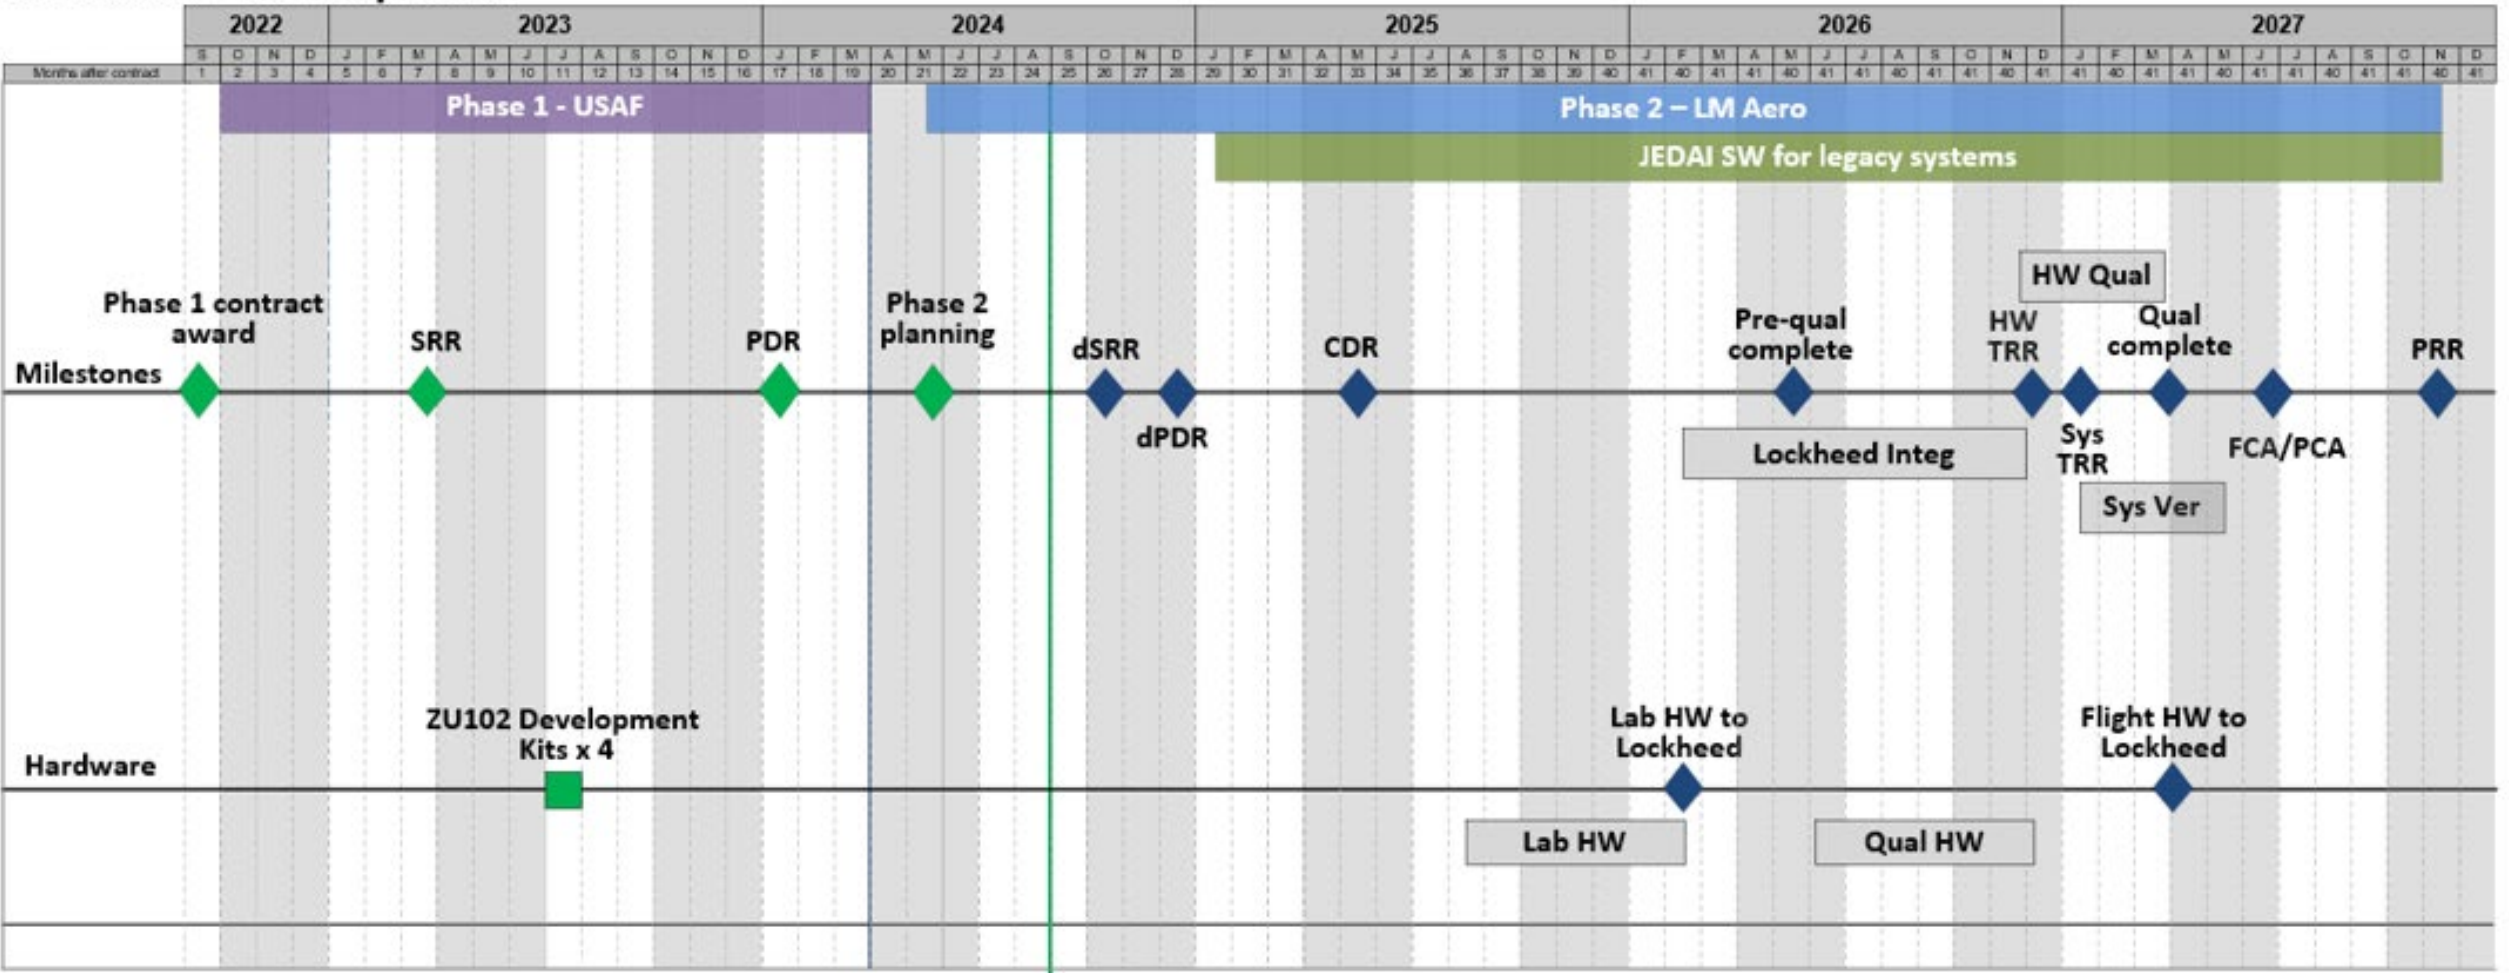

- Lighter** Consolidates DAS LRU's into single LRU  
7 lbs. weight reduction
- Faster** Gigabit Ethernet for rapid data download  
Increased computational capacity  
Larger memory
- Secure** Cryptographic security unit (CSU) provides  
Secure boot program authentication  
AES-GCM encryption
- Drop-in replacement**  
No aircraft interface changes needed  
Maintains all DAS functionality  
Mitigates obsolescence – long term sustainability

# JEDAI Design

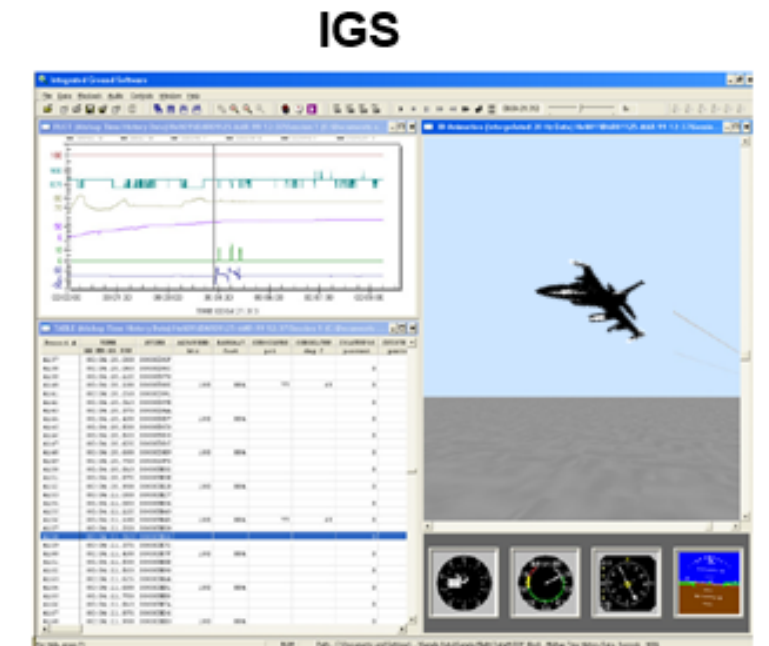

# F-16 JEDAI Development

## Modern data analysis tools and test equipment

- Universal Operational Ground Program (UOGP)
  - Supports recorder data download
  - Supports at aircraft parameter viewing
  - Replaces Operational ground program (OGP)
  - Eliminates dependency on Microsoft Explorer & ActiveX
  - Standalone application for ground equipment computers
  - Compatible with both JEDAI and DAS systems
  - Regularly updated with new features and OS support
- Integrated Ground Support (IGS)
  - Provides recorder replay
- Legacy Systems Test Stations, Acceptance Test Stations, Repair Stations being replaced with contemporary systems
- Mishap Investigation Ground Stations (MIGS) – available

# Providing readiness to deploy and fight

## Light, fast, secure, drop-in replacement

- ✓ Drop-in replacement
- ✓ 7 lbs. lighter
- ✓ Improved aircraft CG
- ✓ Faster data downloads
- ✓ Increased security
- ✓ Expanded storage
- ✓ Modern ground tools
- ✓ Sustainable
